

# ARE YOU STRUGGLING WITH YOUR MEDICAL CARE?

Patient Advocate Foundation wants you to know that you are not alone when dealing with healthcare needs and there are national and regional resources dedicated to improve access to quality care and decrease the financial burden of medical treatment.

The National Underinsured and Uninsured Resource Directories are intended to intelligently narrow the vast and overwhelming number of potential local, state and national resources available to help.

Finding the best options for your situation no longer needs to be a nightmare! By sorting based on specific information, this online tool helps to navigate and identify valuable tools as you seek options to manage the cost and access to your medical care.
